Definitions

Market Value is the estimated value for Class 4 properties based on income and expense information provided by owners from renting these properties.

Assessment Percentage is a fixed percentage of Market Value that is set by law. For Class 4 properties, it is 45%.

Actual Assessed Value is calculated by multiplying your Market Value by the Assessment Percentage.

Transitional Assessed Value is the phase-in of changes to your Actual Assessed Value. N.Y. State law requires that changes to your Assessed Value are phased in at 20% of the change over a five-year period. The Transitional Assessed Value represents all of the changes that are being phased-in for this coming tax year.

Exemption Value is the amount of the reduction in your assessed value as a result of any property tax exemptions you receive. This value is subject to change. If you recently applied for exemptions, they may not be listed. For more information about exemptions, visit nyc.gov/ownerexemption or contact 311.

Taxable Value is the lower of Actual or Transitional Assessed Value minus the Exemption Value.

Estimate your property taxes for 2025/26 by multiplying your Taxable Value by the current tax rate, and then subtract abatements. The result will be an estimate of your property taxes for 2025/26.

Why Were There Changes?

We have updated the values for your property. See the table above.

Important Information

Unless the Tax Commission changes your Assessed Value or exemption, these new values will be used to determine your tax bill for this property. If this notice shows an increase in the Assessed Value, you can file a Tax Commission application for correction. The deadline for filing is 20 days from the date of this notice.

If you have tried to resolve an issue through normal Department of Finance channels and feel it has not been settled, you may contact the Taxpayer Advocate at: www.nyc.gov/taxpayeradvocate, or by calling 311.
