Definitions

Market Value is the estimated value for 1-3 family homes based on recent comparable sales.

Assessment Percentage is a fixed percentage of Market Value that is set by law. For class 1 properties, it is 6%.

Assessed Value (AV) is calculated by multiplying your Market Value by the Assessment Percentage. A cap on AV imposed by New York State law can affect your Assessed Value. Your AV cannot increase more than 6% a year or 20% over five years unless you have made a physical change to your building.

Effective Market Value is calculated by dividing the AV by the Assessment Percentage. Your Effective Market Value of \$333,600 is calculated by taking the AV of \$20,016 and dividing it by 6% (.06).

Exemption Value is the amount of the reduction in your assessed value as a result of any property tax exemptions you receive. This value is subject to change. If you recently applied for exemptions, they may not be listed. For more information about exemptions, visit nyc.gov/ownerexemption or contact 311.

Taxable Value is the Assessed Value minus the Exemption Value.

Estimate your property taxes for 2020/21 by multiplying your Taxable Value by the current tax rate, and then subtract abatements. The result will be an estimate of your property taxes for 2020/21.

Why Were There Changes?

We adjusted the market value of this property.

Important Information

Unless the Tax Commission changes your Assessed Value or exemption, these new values will be used to determine your tax bill for this property. If this notice shows an increase in the Assessed Value, you can file a Tax Commission application for correction. The deadline for filing is 20 days from the date of this notice.

If you have tried to resolve an issue through normal Department of Finance channels and feel it has not been settled, you may contact the Taxpayer Advocate at: www.nyc.gov/taxpayeradvocate, or by calling 311.
